"Rick was easy to work with, they came in and were VERY cleanly both when they made the bid and when they did the work. They were also very helpful in telling us easy things we could do ourselves to increase the energy efficiency of our home. And they had the best price."

"The only issue I had was that the zip walls they used to isolate the work areas (cellulose blown into walls from the house's interior) did not totally contain the dust."

"Fast service! I sent the request to service magic and right after I hit the send button, not more than 30 seconds later I had 3 calls. UZ Insulation was out at my house the same day and had a crew there the next day to complete the job. I'd absolutely recommend Mike @ UZ Insulation."
